EXAMINER'S AMENDMENT

The applicant's response filed 12/21/06 to the Office action has been entered. Claims 57-58 and 64 are pending.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. Frank C. Eisenschenk on 3/10/07.

2. The application has been amended as follows:

In claim 58, line 2, after "(a)", delete "step (a) of Claim 1" and therefore substitute – the step of claim 57(a) --.

3. The following is an examiner's statement of reasons for allowance:

Concerning claims 57, and 58, no prior art has been found teaching or suggesting the method of isolating RNA from a biological sample of a human or animal subject comprising modifying of 2'-OH position of the ribose rings of the RNA so that a proportion of the 2'-OH position of the ribose rings bear a substituent and isolating the RNA by separating the material containing the substituent from the sample.

Concerning claim 64, no prior art has been found teaching or suggesting a method of isolating RNA from a biological sample of a human or animal subject similar to that described above, additionally comprising collecting a biological sample of blood, cells, tissue or body fluids containing RNA.

Art Unit: 1637

The closest prior art is the reference of Dudycz et al. (5783425, issued 7/21/1998). Dudycz et al. disclose the replacement of the 2'-hydroxyl group of RNA with a 2'-amino or 2'-peptido moiety. However, Dudycz et al. do not teach or suggest that the modified 2'-hydroxyl group of RNA is used for the separation or isolation of the RNA from a biological sample of a human or animal subject.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
